

Information Register of Medical Health Care Plan

All University of Puerto Rico (UPR) students enrolled in three (3) credits or more are required to be covered by a Medical Health Care Plan. In order to be cleared from joining into the University's student health care plan, students must be covered by another health care plan and must present evidence of this plan to the office of Medical Services. Tuition exemption does not cover the payment of the health care plan payment.

UPR Student Medical Health Care Plan Selection

(In this section, those who do not have Medical Health Care coverage can request joining the Medical Health Care plan offered by the UPR)

Students can enter in and participate in the UPR's Medical Health Care Plan outside of registration time only if said students have lost their private Medical Health Care plan eligibility due to death, divorce or loss of employment from the main insured person, official close due to the Oficina del Comisionado de Seguros de Puerto Rico or that the insurance company has ceased operations in Puerto Rico. The application for coverage must arrive to the company along with acceptable evidence in no more than thirty (30) calendar days since the date that awards students time to select a different Medical Health Care Plan.

Individual coverage-Part A (generic medicines)

Individual coverage-Part B (generic medicines and/or brand name)
